

MULTIMATCH 2

Rechargeable work light for detailing and colour match

The new MULTIMATCH 2 features a 2 COLOUR LIGHT function. This provides you with the option to choose between 2 different colour temperatures depending on the type of job to be carried out. Typically, the WARM LIGHT (4500K) is useful for bright surfaces, and COLD LIGHT (6500K) is ideal for dark coloured surfaces.

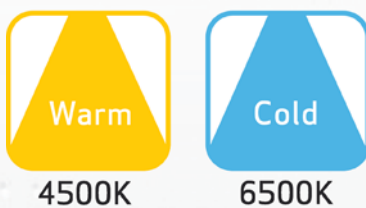

Outstanding and powerful rechargeable work light for detailing providing up to 2500 lumen. MULTIMATCH 2 is ideal for inspection of large surfaces during polishing, painting and cleaning operations as well as for colour match.

The new 5-step dimmer function makes it possible to adjust the light into five different levels. The MULTIMATCH2 is also supplied with a user-friendly display showing both battery capacity and the remaining operating time.

MULTIMATCH 2 is designed with DUAL SYSTEM and can be used both with cable connection and with battery without cable connection, depending on the worktask in question. This gives you complete flexibility and unlimited application possibilities.

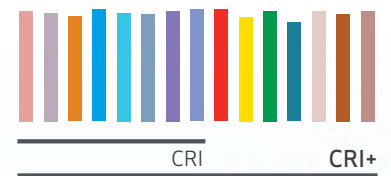

With the new integrated carrying handle, it is convenient to hand carry the lamp. The flexible stand can be used as a hanger and to position the lamp in the desired lighting angle. The stand is designed for direct mounting on the SCANGRIP TRIPOD and WHEEL STAND.
